## 20 Controls & Timing

Special Stages will be timed by digital clocks operated by Marshals under the control of the Chief Timekeeper. Such timing will be to the last completed second Motorsport UK GR R31.1.3. Should any of the clocks fail, the organisers reserve the right to use any other available means for timing. Crews must present themselves with their cars at all controls and it is their responsibility to ensure that all entries on their time cards are correctly recorded and handed in when and where required. Should any entry not be legible or appear authentic, the organisers reserve the right to use any means at their disposal to establish a valid entry.

### 20.2 Control Procedure

You should book into the Main Time Control (MTC (OUT)) at the exit from the Service Area at the time marked on your first Time Card 1. There is a short Road Section to the Arrival Control preceding the first stage which has a generous time allowance so you do not need to rush, there are some narrow one way sections on this route which will be marshalled. At the Stop Line your Stage Finish Time in Minutes is the start of the next Road Section to the RC Control where the Official will remove the Time Card and issue a fresh Time Card for the next Stage. The due time at the next MTC (OUT) will be recorded on this Time Card. The Final Control of the Rally is a MTC which is deemed an MTC (IN).

20.3 Main Time Controls (MTC (OUT)) - Rejoin Point Motorsport UK GR R40.1.6 & Motorsport UK GR R40.1.7

All Special Stages will be preceded by an MTC designated an MTC (OUT) control and a Special Stage Arrival Control. Two cars will be due at the MTC (Out) per minute.

### 20.4 Stage Arrival Control (SSA)

Each Stage will be preceded by a Special Stage Arrival Control (SSA). Two cars will be due here each minute. At this Time Control a Marshal enters a Competitor's time of arrival and the provisional starting time for a Special Stage which must be a minimum of three minutes after the arrival time in order to allow the crew to prepare for the stage. The area between the Special Stage Arrival Control and the Stage Start is parc fermé. Please note you are no longer allowed to change a flat tyre between the Special Stage Arrival and Stage Start.

## 20.5 Special Stages (SS)

Competitors will start all Stages at 30 second intervals. A Bogey Time will be set at 75 M.P.H. and a Stage Maximum Time set at approximately 30 mph.

## 20.6 All Competitors will receive penalties and accumulate lateness as follows:-

a)	Bogey Time or under	Bogey Time
b)	Over Bogey, but under Stage Maximum	Actual Time Taken
c)	Over Stage Maximum	Stage Maximum

No extra time penalty will apply for exceeding Maximum Time on a Special Stage.

## 20.7 Special Stage Start Control (SSS)

Once a time has been given at the SSA, a crew must proceed to the SSS where a start time will be given in hours, minutes and seconds. The Start Marshal will assume that the crew is ready to start the Stage and will issue a time as soon as the start line is clear, whether the crew is ready to start or not. The stage start will be operated by traffic lights linked direct to Digital Clocks with automatic jump start detection by a beam.

## 20.8 The Traffic Light Start Sequence is as below; no verbal warnings will be given and the competitor should leave the start on the Green light.

15 Seconds	Red Light
10 Seconds	Red & 5 Amber Lights
5 Seconds	Red Light is extinguished and the 5 Amber Lights Count down 5-4-3-2-1
0 Seconds	Green Light

A False Start Detector may be used as per R25.7.3

## 20.9 Special Stage Finish Control (SSF)

The Flying Finish will have a light beam which is linked to the Digital Clock at the Stop Line. At the SSF a crew will be given their finish time in hours, minutes, and seconds. Any crew who fails to stop at the Special Stage Finish Control must not, under pain of disqualification, reverse to the stop line but must return on foot. The time given at this Control in Hours and Minutes will be the Start Time for the Road Section to the next RC (In) Control.

## 20.10 Regrouping Controls (RC)

At the SSF Control at the end of Stage 1 to 7, competitors will return to the service area as stated in the Roadbook for the next Service Halt via a RC control which is designated an MTC (IN) Control. The official will collect the Time Card for the Stage just completed and record on the next Time Card your due time at the MTC (Out) for the next stage.

## 20.11 Main Time Control (MTC (IN))

At the end of the event after Stage 8 SSF there will be an MTC (In) Control which will be the finish of the event.

# 21 Servicing & Parc Fermé
